Nuova gamma - *New range*

Salice Paolo

L'AZIENDA / OUR COMPANY

Paolo Salice crea la sua linea di maniglie classiche a cavallo degli anni 40-50, sfruttando il know how acquisito nella lavorazione dell'ottone.

Tecnica, cultura e competenze artigianali si fondono in una gamma completa per stili e finiture, posizionata nella fascia alta del mercato.

Gli ultimi decenni vedono l'ingresso nel settore moderno, dove la competizione ancor più dura, non lascia alternativa alla ricerca della massima qualità e di un design originale, sempre in equilibrio fra sobrietà e personalità.

Lo stabilimento di Cantù vanta sistemi di depurazione delle acque di processo e per l'aria conformi alle più recenti normative in materia. Ed ancora, l'installazione di un sistema di grassaggio ad acqua che elimina totalmente l'uso di solventi, persino quelli oggi dichiarati "non dannosi".

Giunta alla sua terza generazione, la famiglia Salice sta guidando il marchio verso importanti cambiamenti, nel rispetto della sua non comune tradizione e in difesa di una produzione genuinamente Made in Italy.

Paolo Salice creates its own line of classic handles at the turn of 40ties and 50ties, taking advantage of the know-how acquired in the machining of brass.

Technology, culture and craft skills come together in a full range of styles and finishes, positioned at the high end of the market. The last decades saw its entry into the modern ground, where competition is even tougher, and leaves no alternative to the research of the highest quality and original designs, always in balance between sobriety and personality.

The plant in Cantù is equipped with a special purification system for processed water and for the air in compliance with the latest regulations. And yet, the installation of a water degreasing system that eliminates the use of solvents, even those declared today "not harmful".

Now in its third generation, the Salice family is driving the brand to major changes, in accordance with its tradition in defense of a genuinely Made in Italy production.

Ogni prodotto Salice Paolo è distinto dal marchio V.I.P (Very Italian Product) a garanzia di provenienza e qualità. Sull'etichetta di ogni confezione è riportato il codice Trace Me Code che consente di verificarne online l'autenticità.

All Salice Paolo products are characterized by the V.I.P (Very Italian Product) brand that guarantees its origin and quality.

All the labels stuck on the boxes of Salice Paolo products have the Trace Me Code.

Thanks to an online tracking system, the customer can verify that the purchased item is genuine.

NUOVE FINITURE / NEW FINISHES

La gamma Timeless è proposta in sette finiture tra lucide, satinare e anticate, per coprire il più ampio range estetico. L'Etrusco viene introdotto appositamente per questo catalogo, oltre a due novità assolute per il settore: **Oro Champagne**, nelle varianti lucido e satinato.

Sono trattamenti a **bagno Oro 24 Carati**, con processo certificato da Salice Paolo, e costituiscono una raffinata alternativa alle finiture pregiate tradizionali.

Il German Kit GK è la nuova guarnitura Salice Paolo per tutte le situazioni in cui non è possibile usare il sistema standard di sottorosette, ad esempio con spessori ridotti o scarsa tenuta del legno. Due tiranti filettati fissano saldamente ogni coppia di sottorosette alla porta, attraverso due fori passanti con interasse 38 mm.

Il sistema è perfettamente compatibile con le rosette tradizionali ed è disponibile nelle versioni per bocchette Patent e Yale.

The GK German Kit is the new Salice Paolo fixing kit for all those circumstances when the standard subrose fixing system is not an option, i.e. when door thicknesses are very thin or in case of poorness of the timber. Two threaded rods firmly secure both subroses to the door, through 2 holes with a center distance of 38 mm.

The system is fully compatible with traditional roses and is available in versions for both Patent and Yale escutcheons.
