design Giuseppe Bavuso

## sliding doors \_\_ Stripe

Stripe è il sistema di porte scorrevoli caratterizzato dal disegno dei traversi in alluminio, presenti su entrambe le facciate delle porte, rendendo così perfettamente bifacciali le composizioni. Dalla zona giorno alla zona notte, Stripe è un progetto pensato per ogni area della casa, così come per ambienti professionali e aree pubbliche. Una nuova interpretazione della luce come elemento fondamentale degli interni contemporanei, in cui un forte valore grafico si associa alla massima qualità tecnologica. La struttura è in alluminio brown oppure nero. La maniglia, integrata nel disegno dei traversi, è un dettaglio esclusivo che sottolinea la continua ricerca estetica Rimadesio nell'ambito delle porte scorrevoli per interni.

Stripe is the system of sliding panels characterized by aluminium crosspieces on both sides of the doors, thus making the compositions perfectly double sided. From living to night areas, Stripe is a system thought for any section of the house as well as for professional and public setting. A new interpretation of light as key element of the contemporary interiors, where a high graphic value is associated with maximum technological quality. The structure is in brown or black aluminium. The handle, integrated into the design of the crosspieces, is an exclusive detail which underlines the continuous aesthetic research of Rimadesio in the field of internal sliding panels.

Stripe ist die Schiebetürsystem mit der Gestaltung der Aluminiumsprossen auf beiden Seiten der Türen, um eine perfekte doppelseitige Zusammensetzung zu erreichen. Vom Wohnzimmer zum Schlafzimmer, Stripe ist ein System für jeden Bereich des Hauses gedacht, sowie für den professionellen und öffentlichen Bereich entwickelt. Eine neue Auslegung der Licht als grundlegendes Element der Innenräume, in denen eine starke Grafikwert mit der höchsten technologischen Qualität verbunden ist. Die Struktur ist aus Aluminium Brown oder schwarz. Der Griff ist in der Gestaltung des Sprossen integriert und entspricht einem einzigartigen Detail, das die fortlaufende ästhetische Rimadesio Forschung in Schiebetüren für den Innenbereich unterstreicht.

Stripe est le système de portes coulissantes, parfaitement bifacial grâce aux traverses en aluminium sur les deux faces. De la zone jour à la zone nuit, Stripe est un système pensé pour chaque zone de la maison, ainsi que pour les espaces professionnelles et le secteur public. Une nouvelle interprétation de la lumière comme élément fondamental des intérieurs contemporains, où la forte valeur graphique est associée à la plus haute qualité technologique. Le cadre est en aluminium brown ou noir. La poignée intégrée dans les traverses, est un détail exclusif qui souligne la recherche esthétique continue de Rimadesio dans le domaine des portes coulissantes pour l'intérieur.

Stripe es el sistema de paneles correderas caracterizado por el diseño de travases en aluminio, presentes en ambos lados del panel, lo que convierte las composiciones ser perfectamente bifaciales. De la zona de noche a la zona de día, Stripe es un sistema desarrollado para cada área de la casa, así como para las áreas profesionales y los espacios públicos. Una nueva interpretación de la luz como un elemento fundamental de interiores contemporáneos, en los que se asocia un fuerte valor gráfico con la máxima calidad tecnológica. La estructura es en aluminio brown o negro. La manilla, integrada en el diseño de los travases, es un detalle exclusivo que pone de relieve el continuo estudio estético Rimadesio en el ámbito de las puertas correderas para el interior.

Una proposta di area living totale, in cui sistemi e complementi della collezione Rimadesio creano una proposta di grande originalità. In questa pagina e nella precedente: porte scorrevoli Stripe struttura alluminio brown e vetro trasparente grigio. Composizione libreria Abacus living in vetro laccato opaco grigio cenere. Tavolo Flat struttura alluminio laccato caffè e piano in vetro laccato opaco caffè. Madia Eileen square in vetro laccato opaco blu notte.

A complete proposal for the living area, where the systems and complements of Rimadesio collection create a very original proposal. On this page and on the previous one: Stripe sliding panels with brown aluminium structure and grey transparent glass. Abacus living composition in mat grigio cenere glass. Flat table with lacquered caffè aluminium structure and mat lacquered caffè top. Eileen square unit in mat lacquered blu notte glass.

Ein Vorschlag für den Wohnbereich, bei dem mit Systemen und ergänzenden Elementen der Rimadesio-Kollektion ein sehr originelles Angebot gestaltet wird. Auf dieser und auf der vorherigen Seite: Schiebetüren Stripe aus Aluminium brown und grau transparent Glas. Buchregal Abacus Living aus matt lackiertem Glas grigio cenere. Tisch Flat mit Struktur aus lackiertem Aluminium caffè und Platte aus matt lackiertem Glass caffè. Sideboard Eileen Square aus matt lackiertem blu notte.

Une proposition globale pour la zone de jour, dans laquelle les systèmes et compléments de la collection Rimadesio créent une proposition de grande originalité. Dans cette page et dans la précédente: portes coulissantes Stripe cadre en aluminium brown et verre transparent gris. Composition libreria Abacus living en cristal lacado mate grigio cenere. Table Flat cadre en aluminio lacu   caff   y tablero en cristal lacado mate caff  . Bahut Eileen square en cristal lacado mate, blu notte.

Una propuesta de área living total, en la cual los sistemas y complementos de la colección Rimadesio crean una propuesta de gran originalidad. En esta página y en la anterior: paneles correderos Stripe estructura aluminio brown y cristal transparente gris. Composición librería Abacus living en cristal lacado gris cenere mate. Mesa Flat estructura en aluminio lacado caff   y tablero en cristal lacado mate caff  . Aparador Eileen square en cristal lacado mate, blu notte.

Sempre realizzato su misura in altezza e in larghezza, il sistema Stripe è perfettamente integrabile con le porte scorrevoli Velaria, ed è pertanto disponibile nelle medesime finiture di vetri: i 79 colori laccati Ecolorsysten in versione lucida, opaca e reflex, a cui si aggiungono i vetri trasparenti, neutri, satinati e rete. In questa pagina: struttura alluminio brown e vetro trasparente grigio.

Always customized both in height and in width, the Stripe system perfectly matches with Velaria sliding panels, and is thus available in the same glass finishings: 79 Ecolorsysten lacquered colours with glossy, mat and reflex finishes, in addition to transparent, neutral, frosted and metal net glasses. On this page: brown aluminium structure and grey transparent glass.

Das System Stripe wird immer nach Maß in Höhe und Breite hergestellt und sich mit dem System Velaria Schiebetüren integriert, und in den gleichen Glasausführungen vorrätig ist: 79 Ecoloristem lackierte Farben (glänzende, matt oder reflektierend), transparente oder satinierte Gläser und Netz. Auf dieser Seite: Struktur aus Aluminium Brown und grau transparent Glas.

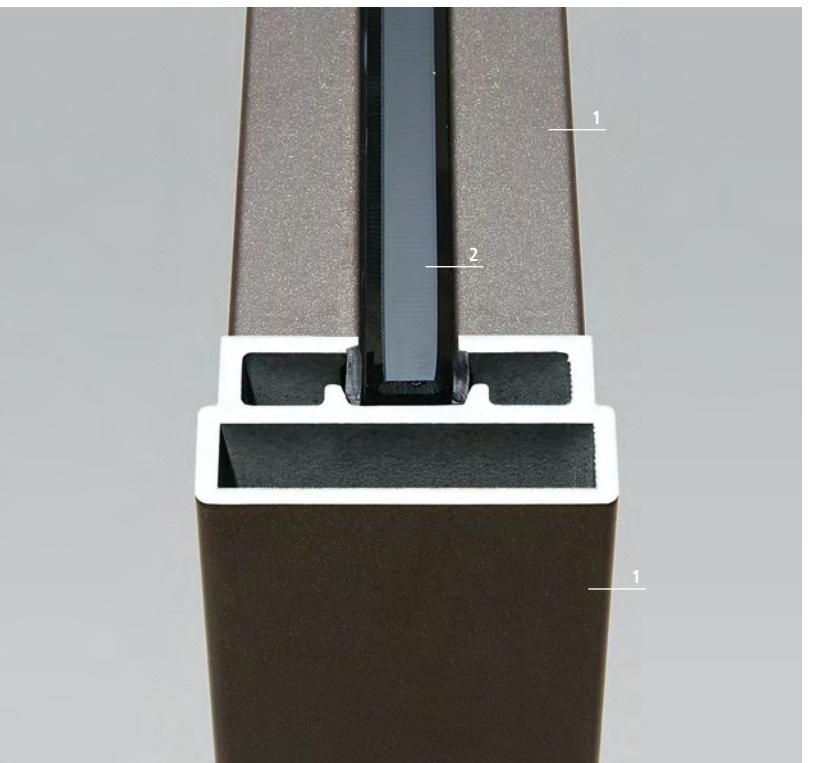

Le système Stripe, réalisé toujours sur mesure en hauteur et largeur, s'intègre parfaitement avec les panneaux coulissants Velaria et donc disponible dans les mêmes finitions des verres: les 79 couleurs laqués Ecolorsystem dans la version brillante, mat et reflex à ajouter aux verres transparentes, neutres, satinés et rete. Sur cette page: cadre en aluminium brown et verre transparent gris.

Siempre realizado a medida en altura y anchura, el sistema Stripe se integra perfectamente con los paneles correderos Velaria, y por lo tanto es disponible en los mismos acabados de cristales: los 79 colores lacados Ecolorsysten en versión brillante, mate y reflex, a los cuales se añaden los transparentes, neutros, satinados y red. En esta página: estructura aluminio brown y cristal transparente gris.

## Stripe

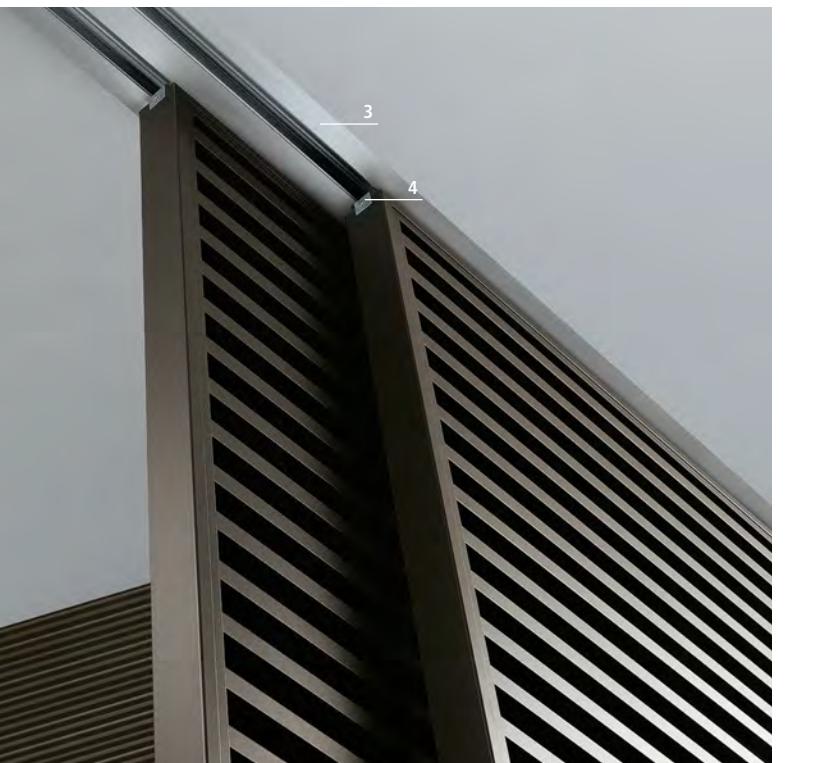

Le caratteristiche tecniche esclusive  
Exclusive technical features

- 1 Struttura in alluminio estruso (lega EN AW-6060) in finitura brown
- 2 Vetro temperato spessore 8 mm, conforme alle norme UNI EN 12150, UNI 7697 e UNI EN 12600
- 3 Binario di scorrimento ad incasso totale
- 4 Regolazione in altezza del pannello

- 1 Extruded aluminium frame (alloy EN AW-6060) in brown finishing
- 2 Tempered glass, 8 mm thick, conforms to UNI EN 12150, UNI 7697 and UNI EN 12600 standards
- 3 Built-in sliding rail
- 4 Panel height adjusting

- 1 Rahmen aus fließgepresstem Aluminium (Legierung EN AW-6060) aus brown
- 2 Sicherheitsglas, Glasstärke 8 mm, gemäß den Bestimmungen UNI EN 12150, UNI 7697 und UNI EN 12600
- 3 Eigenbaute schiene
- 4 Hoeheregulierung des Panels

- 1 Structure en aluminium extrudé (alliage EN AW-6060) en finition brown
- 2 Verre trempé, épaisseur 8 mm, conformément aux normes UNI EN 12150, UNI 7697 et UNI EN 12600
- 3 Rail de coulistement encastré
- 4 Réglage en hauteur du panneau

- 1 Estructura en extrusión de aluminio (aleación EN AW-6060) en acabado brown
- 2 Cristal templado espesor 8 mm, conforme a las normas UNI EN 12150, UNI 7697 y UNI EN 12600
- 3 Guía embutida
- 4 Regulación en altura del panel

- 1 Rahmen aus fließgepresstem Aluminium (Legierung EN AW-6060) aus brown
- 2 Sicherheitsglas, Glasstärke 8 mm, gemäß den Bestimmungen UNI EN 12150, UNI 7697 und UNI EN 12600
- 3 Eigenbaute schiene
- 4 Hoeheregulierung des Panels

Le dimensioni e la maniglia  
Dimensions and handle

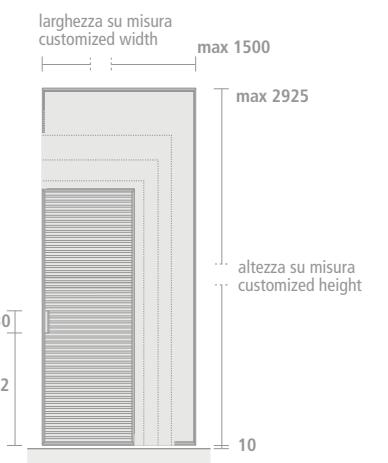

I pannelli scorrevoli del sistema Stripe vengono sempre realizzati su misura in altezza e larghezza, fino alle dimensioni massime indicate nello schema a fianco. Stripe utilizza il binario di scorrimento Rimadesio, che consente una perfetta messa in bolla, assicurando movimenti perfettamente calibrati, anche nelle composizioni di grandi dimensioni.

The sliding panels of the system Stripe are always custom made both in height and width, with maximum dimensions as per the scheme on this page. Stripe uses the Rimadesio sliding rail, which allows a perfect levelling, guaranteeing perfectly smooth movements, even with compositions of big dimensions.

Die Schiebepaneele des Stripe Systems werden immer nach Maß, sowohl in der Höhe als auch in der Breite, gearbeitet. Maximale verfügbaren Abmessungen laut seitlichem Schema. Bei Stripe verwendet Rimadesio eine spezielle Schiene, die die perfekte Nivellierung und Bewegung auch mit großen Anlagen ermöglicht.

1 Binario di scorrimento con profilo telescopico di aggustaggio brevettato. Consente la perfetta messa in bolla del binario di scorrimento e di compensare gli eventuali dislivelli del soffitto, senza fasce di tamponamento e spessori aggiuntivi

2 Velalet copri-binario in estruso di alluminio. Montaggio rapido ad incastro. Dimensioni in lunghezza fino a 6000 mm

3 Profilo di scorrimento brevettato in estruso d'alluminio

4 Profilo in alluminio ad incasso totale. Binario di scorrimento dotato di regolazione in altezza di 14 mm

5 Profilo di ancoraggio a parete in lega di alluminio (EN AW-6005A) temperato. Garantito per carichi di 100 kg per metro lineare

6 Profilo di copertura brevetto in alluminio ad ancoraggio rapido, in tinta alla struttura della porta scorrevole o predisposto per la verniciatura in loco al soffitto

1 Sliding rail with patented telescopic adjusting profile. It allows to counterbalance differences in ceiling height without the use of paddings or coverings

2 Closing cover for rail in extruded aluminium. Quick assembling. Exceptional dimensions in length till 6000 mm

3 Patented sliding profile in extruded aluminium

4 Aluminium total built in profile. Rail adjustable for 14 mm

5 Wall fixing section in hardened aluminium alloy (EN AW-6005A). Guaranteed for loads of 100 kg per linear metre

6 Patented aluminium covering profile with quick fixing system, in the same color of the sliding panel structure or prepared to be painted on site to match the ceiling

1 Laufschiene mit neuem patentierten teleskopischen Profil. Sie erlaubt eine Ausgleichung eventueller Deckenunebenheiten ohne zusätzliche Vorarbeiten

2 Blende aus gezogenen Aluminiumguss, schnelle Klick-Montage und in einer maximalen Gesamtlänge von 6000 mm lieferbar

3 Patentiertes Laufprofil aus Druckguss Aluminium

4 Eingegebauter Aluminium Profil. Laufschiene regulierbar in Höhe von 14 mm

5 Decke-Befestigungsprofil aus temperierter Aluminium-Legierung (EN AW-6005A). Garantierte Tragfähigkeit 100Kg pro Laufmeter

6 Patentierte Abdeckprofile aus Aluminium mit System zur schnellen Montage. Erhältlich in der Strukturfarbe der Schiebepanele oder grundiert, um vor Ort in der Deckenfarbe lackiert zu werden

1 Rail de coulisement avec profil télescopique d'ajustage. Il permet de compenser les éventuels défauts du plafond, sans l'utilisation d'aucun type de tamponnement

2 Bandeau de fermeture en extrudé d'aluminium. Montage à enca斯特re rapide. Dimensions exceptionnelles en longueur jusqu'à 6000 mm

3 Profil de coulisement breveté en extrudé d'aluminium

4 Profil en aluminium à encaster complètement. Rail de coulisement réglable en hauteur de 14 mm

5 Profil de fixation mural en alliage d'aluminium trempé (EN AW-6005A). Garanti pour poids de 100 Kg par mt.lin.

6 Profil de couverture breveté en aluminium avec système de fixation rapide, dans la même finition de la structure du panneau coulissant ou prêt pour la peinture sur place dans la teinte du plafond

1 Guía con perfil telescopico de ajuste patentado. Permite ajustar eventuales desniveles del techo, sin bandas y espesores añadidos

2 Tapa de cierre en extrusión de aluminio. Montaje rápido a encaje. Dimensiones excepcionales hasta 6000 mm

3 Perfil corredero patentado en extrusión de aluminio

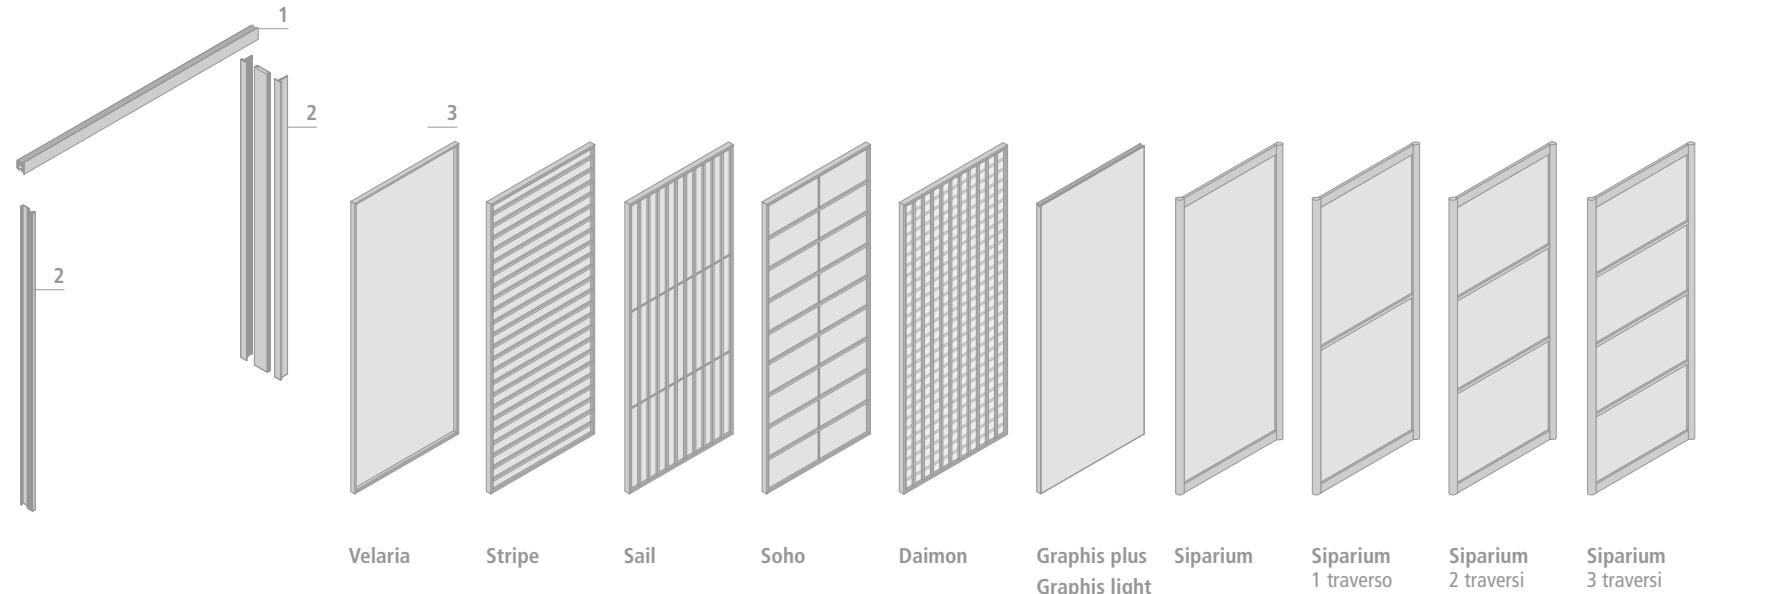

4 Perfil en aluminio embutido totalmente. Guía dotada de regulación en altura de 14 mm

5 Perfil de anclaje a pared en aleación de aluminio (EN AW-6005A) templado. Garantizado para cargas de 100 Kg por metro lineal

6 Perfil embellecedor en aluminio de sujeción rápida patentado, combinado a la estructura del panel corredero o preparado para la pintura en obra combinada al acabado del techo

Porte scorrevoli lineari  
Linear sliding doors

Guida al progetto  
Project guide

Tutte le porte scorrevoli Rimadesio sono state ingegnerizzate per garantire la massima semplicità di progettazione e per essere installate sull'esclusivo sistema di scorrimento a parete, soffitto e incasso. Una porta scorrevole completa è composta da un binario di scorrimento, un pannello porta e uno stipite o montante opzionale.

All Rimadesio sliding panels have been engineered to guarantee the highest design simplicity and to be installed on the exclusive wall, ceiling and built-in sliding systems. A complete sliding panel is made up of rail, door panel and optional jamb or runner.

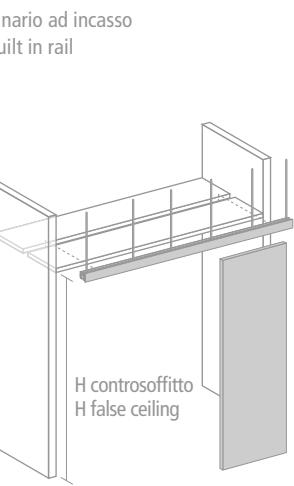

Alle Schiebetüren von Rimadesio funktionieren mit einer Wand-, Decken- oder Deckeneinbauschiene. Eine komplett Schiebetüranlage besteht aus einer Schiene, einem Türpanel und einem optionalen Türpfosten.

Porte scorrevoli a scomparsa  
Sliding doors into the wall

Guida al progetto  
Project guide

Le versioni scorrevoli a scomparsa delle porte Rimadesio sono progettate per integrarsi con i più diffusi controtelai in commercio. Una porta scorrevole a scomparsa si compone di un pannello porta e di uno stipite telescopico, in grado di adattarsi alla differenza di spessore fra le pareti, disponibile nelle versioni standard, con sei varianti estetiche, slim et mini.

Rimadesio sliding doors into the wall are designed to be inserted into the most common pocket systems on the market. A sliding door into the wall is made up of a door panel, telescopic jamb that can be adjusted on different thickness of the walls, available in standard version, with six aesthetic qualities, slim and mini.

Die Schiebetüren die in der Metalltasche in der Mauer laufen sind geeignet für die meisten Mauertaschen die am Markt erhältlich sind. Eine Schiebetür die in der Metalltasche in der Mauer läuft besteht aus einem Türpanel und einem teleskopischen Türpfosten, der sich an die unterschiedlichen Mauerabstände anpassen kann. Dieser ist standardmäßig erhältlich in sechs verschiedenen Versionen, slim oder mini.

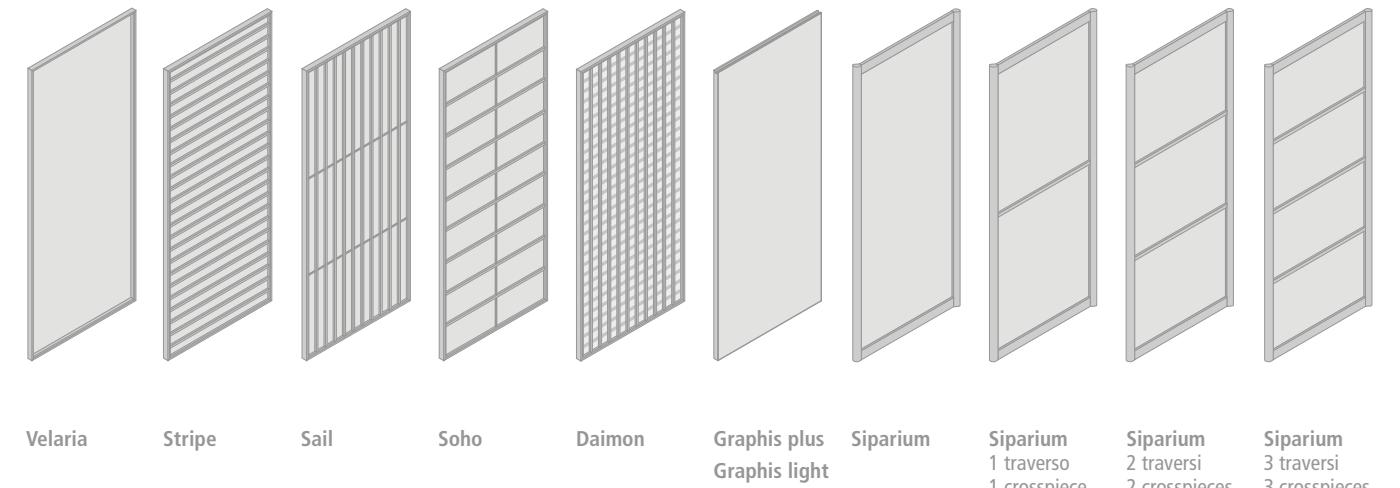

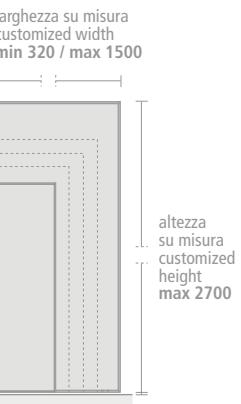

La version galandage de panneaux Rimadesio prévoit une intégration avec les plus connus systèmes à galandage sur le marché. Une porte scorrevole à scomparsa si compose par un panneau et un jambage télescopique, capable de s'adapter aux différents épaisseur de mur, disponible en version standard, avec six variantes esthétiques, slim et mini.

Las versiones correderas en el muro de las puertas Rimadesio están diseñadas para integrarse con los más populares contramarcos en el mercado. Una puerta corredera en el muro se compone de una puerta y una jamba telescópica, capaz de adaptarse a la diferencia de espesor entre las paredes, disponible en versiones estándar, con seis variantes estéticas, slim y mini.

Il pannello porta  
Door panel

Il pannello porta è l'elemento integrante del progetto che dialoga con l'architettura degli spazi, creando soluzioni di forte impatto. La realizzazione, sempre su misura, è consentita fino all'altezza massima di 2700 mm e alla larghezza massima di 1500 mm. La ricerca tecnologica Rimadesio ha permesso di realizzare un pannello porta che rientra completamente nel controtelai, assicurando la massima qualità estetica di ogni installazione.

Door panel is the integral part of the project, that communicates with spaces architecture, creating strong effect solutions. The production, always custom-made, can reach maximum height of 2700 mm and maximum width of 1500 mm. Rimadesio technological research allowed to realize a door panel that disappears completely into the pocket system, ensuring the highest aesthetic quality for every installation.

Das Türpanel schafft den Dialog zwischen Architektur und Raum, mit Lösungen die eine starke ästhetische Wirkung haben. Die Ausführung ist immer auf Mass, bis zu einer maximalen Höhe von 2700 mm und einer maximalen Breite von 1500 mm. Die Paneele können komplett im Blindstock versenkt werden und garantieren eine maximale ästhetische Qualität.

Le panneau est un élément intégral du projet en dialogue avec l'architecture de l'espace, avec des solutions très percutantes. La réalisation, toujours sur mesure, est possible jusqu'à la hauteur maximale de 2700 mm et la largeur maximale de 1500 mm. La recherche technologique Rimadesio a permis de réaliser un panneau totalement escamotable, et donc avec une installation de haute qualité esthétique.

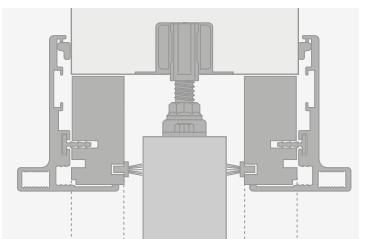

El panel de la puerta es un elemento integrante del proyecto que dialoga con la arquitectura de los espacios, creando soluciones de fuerte impacto. La realización, siempre a medida, está consentida hasta la altura máxima de 2700 mm y la anchura máxima de 1500 mm. La investigación tecnológica Rimadesio ha permitido realizar un panel de puerta que encaja completamente en el contramarco, garantizando la máxima calidad estética de cada instalación.

Stipite telescopico mini per controtelai a scomparsa Scrigno® Essential e Eclisse® Syntesis Line  
Telescopic mini jamb for systems Scrigno® Essential and Eclisse® Syntesis Line

L'esclusivo stipite telescopico permette di compensare lo spessore di eventuali rivestimenti con un'escursione massima di 15 mm per lato.

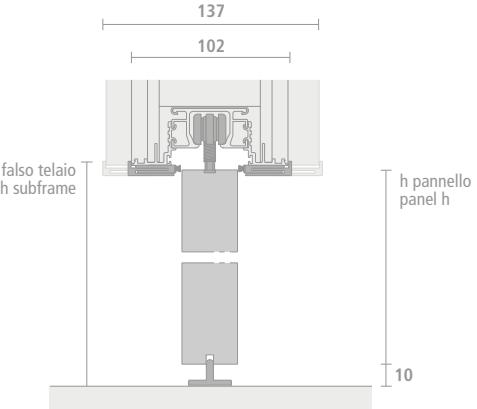

The exclusive telescopic jamb allows to adjust the differences in thickness of the walls, with a maximum of 15 mm per side.

Der exklusive teleskopische Pfosten in Aluminium ermöglicht den Ausgleich eventueller Unterschiede in der Mauerdicke auf beiden Seiten bis zu maximal 15 mm pro Seite.

L'esclusif jambage télescopique peut s'adapter aux différents épaisseur de revêtement mural, pour un maxi de 15 mm chaque côté.

La exclusiva jamba telescópica permite compensar el grosor de cualquier revestimiento con una extensión máxima de 15 mm por lado.

Calcolo altezze pannelli porte  
Door panels heights calculation

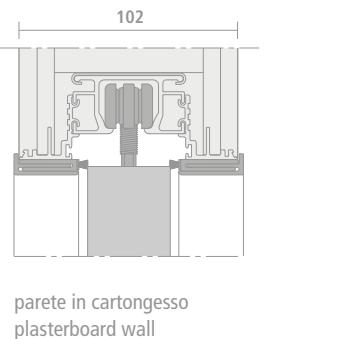

**Velaria / Stripe / Sail / Soho**  
**Daimon / Siparium**

H pannello = H falso telaio - 7 mm  
panel H = subframe H - 7 mm

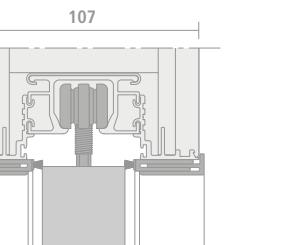

**Graphis plus**

L pannello = L falso telaio - 13 mm  
panel W = subframe W - 13 mm

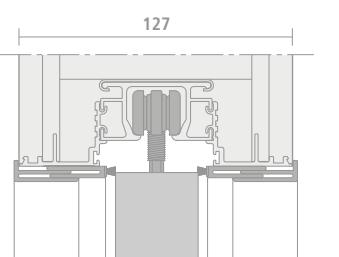

Tipologie di installazione  
Installation typologies

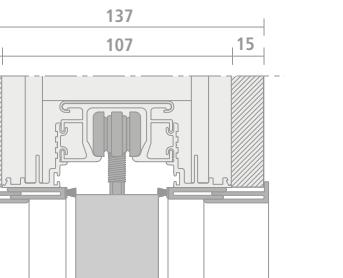

parete in cartongesso  
plasterboard wall

parete in laterizio  
brick wall

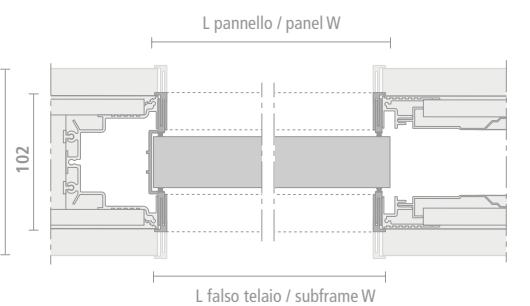

parete in laterizio o cartongesso  
brick wall or plasterboard wall

parete in laterizio o cartongesso (spessore 107 mm + rivestimento)  
brick wall or plasterboard wall (thickness 107 mm + covering)

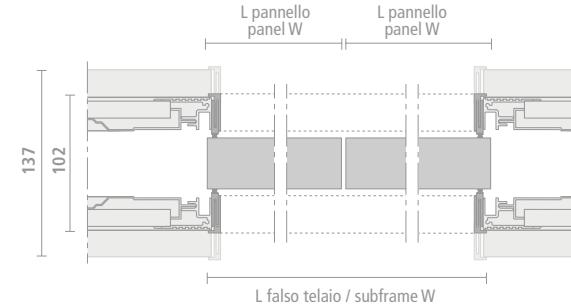

Calcolo larghezze porta singola  
Single door width calculation

**Velaria / Stripe / Sail / Soho**  
**Daimon / Graphis plus**  
L pannello = L falso telaio + 10 mm  
panel W = subframe W + 10 mm

**Siparium**  
L pannello = L falso telaio + 23 mm  
panel W = subframe W + 23 mm

Calcolo larghezze porta doppia  
Double door width calculation

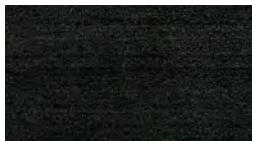

**Velaria / Stripe / Sail / Soho / Daimon**  
L pannello = (L falso telaio + 12 mm)/2  
panel W = (subframe W + 12 mm)/2

**Siparium**  
L pannello = (L falso telaio + 36 mm)/2  
panel W = (subframe W + 36 mm)/2

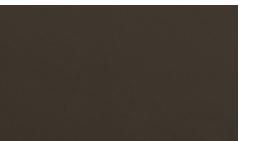

**Graphis plus**  
L pannello = (L falso telaio + 14 mm)/2  
panel W = (subframe W + 14 mm)/2
